

COMMUNITY IMPACT

The Community Transformers Foundation is committed to increasing education, decreasing poor health and improving living conditions in marginalized communities.

We care about our community and the "TransConnect" program is designed to provide access to rural communities across Virginia.

USING TRANSPORTATION TO
CONNECT COMMUNITIES

A COMMUNITY PARTNERSHIP PROGRAM

PROGRAM INFO

Connecting the community to food and medical services is core for the TransConnect Program.

The program helps to improve the lives of the elderly and vulnerable populations by delivering food and medical supplies to people who live in rural areas and food deserts.

The TransConnect program is for individuals who are impacted by a lack of resources in addressing food insufficiency and medical needs such as care, medications, and medical equipment.

We believe providing transportation delivery services for food and medications is essential to these communities.

HOW OUR PROGRAM WORKS

We work with local community partners to identify individuals with chronic transportation needs around food and medical challenges.

- Local Pharmacies
- Physician Offices
- Food Banks/Pantries
- Local Departments of Social Services
- Area Agencies on Aging
- Senior Connections
- Faith Based Institutions
- Local Law Enforcement Agencies

We offer telephone support and online registration through our website for individuals to sign up for the delivery services.
